To every person and organization that respects baseball

**SUBJECT:** Our greetings to any initiative in favor of World Baseball

Through this note, we wish to express our explicit greetings to any initiative that seeks to promote baseball anywhere in the world and, in the same way, our respect and admiration for organizations that dedicate efforts and resources to ensure that this discipline is extended and provide the best of your spirit through tournaments, championships and events around the different latitudes of the world.

Baseball as a sport has the ability to generate cultural integrations, recognition for one another, inclusion and above all brotherhood, it is a show that conveys joy, hope and peace, it is a discipline that teaches the important thing of playing as a team with nobility, character and humility respecting the contender, the opposing team, the fans and the sport itself.

At the moment, the **INTERNATIONAL PROFESSIONAL DREAM BASEBALL CUP-ANDALUCIA 2019-IPDBC**, is an important initiative that has managed to group 14 teams from 3 continents, just as it has managed to confirm the presence of a prominent group of personalities, which promises to give a unprecedented and unprecedented show in European lands, specifically in Spain. However, its realization is compromised by the pressure, outrage and inexplicable performance of the authorities of the World Baseball (**WBSC**) who intimidate all support obtained, on the grounds that it is not an official winch.

We send greetings to the **IPDBC** and **4BIG SPORTS EVENTS EUROPE SL** as an organization that promotes and organizes it, and we tell the world that we must support the ideas and projects that independently, privately and without complexes are committed to honoring the essence of sport by give opportunities, open doors, create spaces and play together.

For baseball and its expansion without limitations, he says goodbye

Sincerely

Gerardo Oviedo
